

Mohammad Atif

Date of birth: 20 Apr 2000 | **Nationality:** Pakistani | **Phone number:** (+92) 3183185253 (Mobile) | **Email address:** mohammadatif24680@gmail.com |

Address: Gadwal Road 26 Area wah cantt, E11/4 Street 15A Islamabad, 47010, Wah, Pakistan (Home)

ABOUT ME

Experienced Laravel Developer with 1.5 years of expertise in building scalable web applications. Proficient in PHP, Laravel, and MySQL, with a strong focus on creating secure, efficient, and user-friendly solutions. Skilled in API integration, authentication, and database management. Committed to clean, maintainable code and continuous learning to stay current with industry trends.

WORK EXPERIENCE

17 JAN 2024 – CURRENT Rawalpindi, Pakistan
LARAVEL DEVELOPER MOHAMMAD ATIF

Web Application Development:

- Develop and maintain web applications using Laravel, covering both front-end and back-end tasks.
- Implement new features and functionalities based on project needs.
- Review, debug, and optimize code for better performance.

Database Management:

- Design, manage, and optimize databases, typically using MySQL.
- Handle data migrations and ensure data integrity across environments.

API Development:

- Create and integrate APIs, ensuring seamless operation within the application.
- Integrate third-party services as needed

4 JAN 2023 – 13 JUL 2023 Hyderabad, Pakistan
LARAVEL DEVELOPER MOHAMMAD ATIF

Web Application Development: Building and maintaining scalable web applications using Laravel and PHP, with a focus on clean and efficient back-end logic.

Front-End Design: Creating responsive and visually appealing interfaces using Bootstrap, ensuring a seamless user experience across devices.

API Integration: Integrating third-party APIs for services such as payments, data feeds, and social media platforms, ensuring smooth and secure communication between systems.

AJAX and jQuery Development: Implementing dynamic, real-time features using AJAX and jQuery for a more interactive user experience without page reloads.

Database Management: Designing and managing relational databases, optimizing queries, and ensuring data integrity and security.

Debugging and Troubleshooting: Identifying and fixing issues in both the front-end and back-end to ensure the application runs smoothly.

Version Control and Collaboration: Using Git and GitHub for version control, collaborating with teams on code reviews and development workflows.

Continuous Learning: Keeping up to date with the latest web technologies, frameworks, and best practices to improve performance and user experience.

10 OCT 2022 – 10 NOV 2022 Hyderabad, Pakistan
INTERNSHIP LARAVEL DEVELOPER MOHAMMAD ATIF

Assisted in developing web applications using Laravel and PHP.

Gained hands-on experience in database management and back-end development.

Worked under senior developers to fix bugs and implement minor features.

Learned version control and collaborative development using Git and GitHub.

Contributed to improving code quality and adhering to best practices.

Website <https://www.mitss.edu.pk/> | Level in EQF EQF level 1

● PROJECTS

LIMS (Laboratory Information Management System)

A **LIMS (Laboratory Information Management System)** is a specialized **SaaS** application that manages lab data, workflows, and regulatory compliance, streamlining operations in laboratory environments.

EZI ERP

The **EZI ERP** project is a **POS (Point of Sale) System** designed to streamline sales, inventory, and financial tracking for retail businesses. It includes features for managing products, sales, purchases, expenses, and user roles, providing a comprehensive solution for business operations.

CollabMaster

CollabMaster is a **CRM (Customer Relationship Management) system** that connects brands and creators, facilitating collaborations and project management. It allows brands to find and communicate with creators, while admins can monitor project activities, ensuring efficient workflow and accountability for both parties.
